They are also at this time scattering over Texas a daily supply of one hundred and fifty pounds of spun cotton, and having purchased a contigious block of lots, are erecting comfortable cottages, offering practically to the distressed widows and orphans of our land comfortable houses and useful employment, in place of suffering, want, and demoralizing idle-

Which are the evidences of LIVER COMPLAINT AND DYSPEPSIA.

It is estimated that seven-tenths of all aduit silments proceed from a deceased and torpid liver. The billary secretions of the liver overflowing into the stomach pedson the entire system and exhibit the above symptoms. After long research, we are able to present the most remarkable cure for these horrid nightmare discoses, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the PLANTATION BITTERS, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulan suited to all conditions of life.

The reports that it relies upon mineral substances to its active properties, are wholly false. For the satisfaction of the public, and that patients may consultheir physicians, we appond a list of its components.

OALDSAYA EARK.—Celebrated for over two hundred years in the treatment of Fover and Ague, Dyspepsia, Weakness, etc. It was introduced into Europe by the Countess, wife of the Vicercy of Peru, in 1840, and afterwards sold by the Jeenits for the enormous price of its own weight in sider, under the name of Jesuit's Powders, and was finally made public by Louis XVI, King of France. Humbold makes especial reference to its febrifuge qualities during his South Ancerican travels.
